Zeimet, Denis E., 349

Article Title

Cogeneration in the Pulp and Paper Industry, The Effects of Fuel and Electricity Prices on, 1
Communication Effects in Determining Response to Conservation Programs, The Role of, 369
Decentralized Electricity Generation, Characteristics of, 113
Energy Conservation in Public Housing: It Can Work, 269
Energy Efficiency of Iowa Public School Buildings, A Comparison of, 349
Energy Price Increases on the Well-Being of Farmers and Consumers, Impacts of, 293
Heterogeneity in Residential Sector Fuel Prices at Various Levels of Aggregation, An Analysis of, 183
Incentive Systems for Large-Scale Energy Projects, 395
Marginal Energy Cost of Goods and Services, The, 85
MENSA—A Regionalized Version of MARKAL, the IEA Linear Programming Model for Energy Systems Analysis, 313
Model of Oil Prices Following a Disruption in Supply, A, 145
Shale Oil Recovery R&D Program, Goal Setting and Strategic Planning for a, 29
Solar Energy Adoption Patterns in the United States, 161
Solar Thermal Technology Near Term Impact on Imported Petroleum, 67
Stabilization Theory, Regulatory Policy, and the Investment Preferences of Utility Shareholders, 237
Utility-Sponsored Conservation Programs: Do the Programs Work?, Measuring the Effects of, 213
